

Dear Members

As I am sure you are all aware from the 16th to the 19th of October, [INGID/ESID/IPOPI 2024](#) conference will be taking place in Marseille. The overall theme for the conference this year is “**Human Inborn Errors of Immunity: An Expanding Universe**”.

There are lots of opportunities for you to be involved and we hope to be able to offer some funding for all speakers.

We are looking forward to as many of you as possible to join us in Marseilles. To host a great conference, we need your help and expertise in organizing the different talks/sessions. We are offering different talks, which will be funded (travel expenses, accommodation, and registration fee). You can apply for those funded talks as follows:

- Please write the **title** of your presentation and add **3 to 5 bullet point statements** describing the topics you will cover in your talk.
- Send your application to contact@ingid.org **until the 30. April 2024**
- The talks can be held in **French or English**, your applications can also be in French **or English**. The conference will be simultaneously translated between French and English.
- If you have any questions or need some support, please let us know, we will be happy to help.

We are looking for speakers for the following sessions:

Round the world session (4 speakers)

We are inviting Nurses to tell us about the role of the immunology nurse in their hospital/country. What support/resources do you have. How has the role developed in the past few years. We would like to hear from several countries and learn from the varied practices.

Education session (3 speakers)

We are inviting Nurses to tell us about the educational tools and material they have for supporting and informing patients

Case studies (2 speakers, one case of an adult patient, one case of a pediatric patient)

We are inviting Nurses to share interesting case studies on patients receiving IVIG, these could demonstrate shared decision making, patient history, interesting complications etc.

Debate (2 speakers, two per team)

We are inviting nurses to participate in a debate on:

- Individualized treatment vs standard treatment

Do you feel passionately about the care your patient receives and want to share your philosophy then please get in touch.

If you are interested in being involved, please share your experience with us. We are interested to hear from as many of you as possible.

If English is not your first language, please do not worry – we want to hear about your experience and learn from it. And we have many members who speak several languages who are happy to help with translating.

Please apply before 30.4.2024
